PROJECT EXPERIENCE

- **Safety Labs Inc. (Feb 2021 - till date)**

Sector: Tele-medicine Home-based Health Care

- **Role:** SDE-II, Full Stack Developer (JavaScript, Java)
- **Products I worked on:** Sirona TV, Sirona UMI, CNE, Health Cart, Mobile-Health Cart, H- KIOSK, AION, AI-Companions, Custom 3D avatar with liping and chat GPT powered AI (in-progress)

Responsibility:

- ✓ Software Engineer with experience in **Java, MySQL, NodeJs, ReactJs, FHIR, Google FHIR**
- ✓ Spearheaded the development of the Scheduler project, resulting in an impressive **80% reduction in the workload** of healthcare providers and remarkable **30% increase in revenue**.
- ✓ Proficient in managing multiple projects concurrently, skilled in designing and developing user interface.
- ✓ Created calendar-based appointment scheduling system, based on practitioner-patient approval and custom auto action driven suggestions as per user app usage.
- ✓ The Sirona projects contained multiple ways to take the vital reading of the patients and process them before presenting them to the practitioner and patients..
- ✓ Recreated the the front-ends of applications and fixed java web APIs.
- ✓ In some cases, optimized and fix front-end applications for low powered-dedicated hardware ensuring smooth and free operations, running with modern televisions.
- ✓ Working with AI, integrating on the chat bots and product companion.
- ✓ Worked with Salesforce Developers and Admin.
- ✓ Integrated Salesforce for scheduling and tracking the mobile care workers.

- ✓ Collaborated with Quality Assurance team and provided detailed product testing documentation.

➤ **Net Creative Mind Solutions(Oct 2020 - Jan 2021)**

Sector: Government project on digitization

Role: Java Developer Trainee

Products I worked on: Digitization project initialization

Responsibility:

- ✓ Handled UI/UX development using Figma and coding them in JSP and HTML.
- ✓ Worked on Newgen's products, including OmniDoc, OmniScanner.
- ✓ Developed Java and Advanced java code to create flow and implement validations in NextGen provided code.
- ✓ Successfully fixed bugs to ensure the project went online smoothly.
- ✓ Projects are for CEMILAC and DRDO.
